*"Let the little children come to Me, and don't stop them, because the kingdom of God belongs to such as these," Luke 18:16b*

### **Swimming pools were God's answer**

The mayor of a city in Turkey decided to build swimming pools all over the city. It was a great idea. There are many canals in the city and children used to try swimming in the canals. It was dirty and dangerous. That's why the mayor built the pools.

And God is using the pools that the mayor built! There is a new pool in a neighborhood where a Christian family lives. They have prayerwalked their streets of their neighborhood once a month for over a year. They asked God and asked God for a way to make friends and get to tell them about Jesus.

You got it—they meet new friends at the pool. The pools are an answer to prayer. This Christian family asks us to pray: "Dear God, we pray that You will help these neighbors in Turkey learn more about You. We pray that they will tell others about Jesus too. God, please help the Christians be good witnesses of Your love."
