"Let the little children come to Me, and don't stop them, because the kingdom of God belongs to such as these," Luke 18:16b

BUCKETS OF HOPE

What do you want when you scrape your elbow or knee? Don't you want someone to put medicine on it and give you a hug? What about when you are hungry? Don't you want someone to fix you some food? The children in Haiti want the same things you do. They had a terrible earthquake in Haiti and many of the children were hurt and are hungry.

WE can help! We can contribute "Buckets of Hope" to send to Haitian families. Ask your parents or church leader to go to <http://www.namb.net/> and download the instructions. We can send buckets and buckets of hope and love filled with rice, cooking oil, black beans, flour, sugar, spaghetti noodles and peanut butter. When the Haitian families get their buckets, they will have food to eat.

This week, there are four medical teams—doctors and nurses from our churches—in Haiti. They are working in different places and helping the people who were injured. Please pray for them because they are working really long hours. Christian volunteers were able to \$12,000 worth of baby formula and other baby supplies to help in another area.

Missionaries and volunteer workers are getting a handle on all the needs in Haiti—we can get a handle on these buckets. Please ask God how He wants you and your church to get involved in sharing hope—BUCKETS of hope. <http://www.namb.net/>.
