"Let the little children come to Me, and don't stop them, because the kingdom of God belongs to such as these," Luke 18:16b

PLANTING APPLE TREES

There is a part of Central Asia where the Uighur people live and where they used to grow LOTS of apples. There were apple orchards all over town. The trees were cut down—just a few at first, but more and more over time—and then they put up buildings where the trees once stood. That meant no more apples!

Out in a village, there's a new apple business. Workers take care of the apple trees and train some of the farmers and apple vendors. This month new tree seedlings are being shipped to the village to be planted. Please pray for the trees to arrive safely. The workers need a good tractor too. Pray they will be able to find an orchard tractor.

There's a saying, "You can count the number of seeds in an apple, but only God can count the number of apples in a seed." Please pray that God will give workers LOTS of apples for every seed. Pray the workers will be able to tell the Uighur people about our God who made the trees.
